rad, deposed. AFFAIRS in the east are still unsettled, and peace is as far away as ever. Russia is still intriguing, Austria is conciliating, and England is afraid.

WE refrain from comment upon the decision of Attorney-General Heirkell, touching the coupon-payment matter, until we receive the full text of his communication to the governor.

Our scknowledgments are due and are heartily tendered to Mr. John S. Too!, superintendent of the cotton excommerce, for invaluable and season-

will, murdering and raiding, but Crook has hopes of coming up with them some time. Meantime the bulk of the army is to be at the beck and call of the United States marshals at the routh.

THE circular to the United States marshals respecting their duties under the says fruit will not grow in this country? election laws is before the President for final approval. Of course it will be ap proved, although it is plain to every honest man that it is illegal and a palpable usurpation of power.

THE monetary crisis in Portugal has subsided, and the Bank of Portugal continues its transactions as usual. All the other banks and merchants have announced that they will not avail themgelves of the decree of the eighteenth for deferring payments.

THE speech delivered by Governor Harris at Covington, yesterday, was marked by all his old-time warmth and fervor, and increased the confidence the people of Tipton have bitherte had in him as a great leader, worthy the highest respect and esteem of his fellow-

MAJOR SYKES, who presided at the meeting of the Third ward Democrats, made a speech on taking the chair that, though brief, was pointed and effective, eliciting as it did the hearty and unstinted encomiums of all who were present. A TELEGRAM from London yesterday says that the three hundred million United States funded loan was offered for subscription, and was put upon that market at 1031. The Financier says the issue will probably have little effect on the money market, the operation being a substitution for the existing stock, but some effect will be produced while the deposits are locked up pending the receipt of the new bonds.

THE nomination of Horatio Seymour for governor of New York was a musterstroke of policy on the part of the Democracy of the Empire State that assured the election of the Democratic ticket by an immente increase on Tilden's majority two years ago, It sent a thrill through all the States, calling forth a measure of enthusiasm or ly second to that elicited by the nomination of Tilden and Hendricks, and it is deeply to be regretted that he has been compelled to decline an honor that, under the circumstances, placed his party under an obligation they would have felt and requitted. His declination embarrasses the party, but we feel certain will not seriously affect the result his acceptance would have assured.
